Precious Hubby: —

Am at my mom's house, having served all day. I am extremely tired, so will have to make this a little shorter than usual. I have made two uniforms — now that I am going to stay at the hospital, I need a few more. My back and head aches dreadfully. Am now preparing to go back to your mom's house to pack up a few things in a valise to take along tomorrow morning.

How are you dear heart? What have you been doing to-day precious? I sure do miss I was getting ready to come down to you instead of getting ready to stay in the hospital.

Went to Sue's house yesterday with Rose. Will write you a big letter to-morrow and tell you all about it.

You will forgive me, honey, if I close now, as I have had to do, and am now as tired as can be. Forgive also the pencil writing as the supply of ink was very short at home house. Expect Rose will write to you to-day also.

Received only one letter from you in the last 2 days. Suppose I will get 2 to-morrow. Didn't receive any on Friday, & only one on Saturday.

Shall close now precious, with all my love and kisses

Your terribly tired wife

How did you make out with your dentist? What did your dentist say about your teeth, did you get your plans concerning anything?
